L

چینی‌کُرد

با طراحی محصولات الهام‌بخش و متناسب با سبک‌های معماری مختلف، چینی‌کُرد از سال ۱۳۶۲ در صنعت چینی‌بهداشتی شروع به فعالیت کرده است. تمامی محصولات چینی‌کُرد، با قلم طراحان جوان و خوش‌فکر، تحت نظارت و کنترل کیفیت مهندسان باتجربه و در راستای استانداردهای بین‌المللی این صنعت، متولد می‌شوند.
هدف اصلی این برند، آوردن شیوه‌های زندگی نوین به سرویس‌های بهداشتی و ایجاد یک فضای راحت، الهام‌بخش و در عین حال زیباست.

سبک زندگی

در دنیای پر تکاپو و شلوغ امروز که تبدیل خانه و محل کار به یک فضای امن و راحت برای دریافت حس آرامش و تجدید قوا، بیش از قبل مطرح است، سرویس‌های بهداشتی نه تنها مکانی برای شست‌وشو هستند، بلکه می‌توانند فضایی باشند که افراد در آن احساس آرامش، تمرکز و الهام داشته باشند.
استفاده از رنگ‌ها و الگوهای مناسب، گل‌ها و گیاهان زینتی، عطر و اسانس‌های معطر و نورپردازی مناسب در خلق حال و هوای خوشایند و فضایی زنده در سرویس بهداشتی موثر هستند؛ اما از همه مهم‌تر، محصولات بهداشتی که علاوه بر سهولت در استفاده و عملکرد مناسب، طراحی زیبایی داشته و به راحتی با فضا هماهنگ شوند در تکمیل این جریان آرامش نقش کلیدی دارند.
چینی‌کُرد با داشتن این طرز نگاه، محصولاتی با تلفیق زیبایی، کارایی و مدرنیته خلق می‌کند. توجه به جزئیات، در کنار کیفیت محصولات چینی‌کُرد، علاوه بر خلق یک تجربه خوب برای مصرف‌کنندگان داخلی، طرفدارانی از کشورهای خاورمیانه، شمال آفریقا و اروپا نیز داشته است.
چینی‌کُرد برای تبدیل شدن به یک برند پیشرو و مدرن، نه تنها از شیوه‌های طراحی نوین در طراحی محصولات خود استفاده می‌کند، بلکه "تکنولوژی" و "پایداری زیست محیطی" را نیز در این فرآیند می‌آمیزد. در این مسیر، از ماشین‌آلات منحصربه‌فرد در تولید استفاده می‌کند، روش طراحی نوآورانه و کاربردپذیر را پیش گرفته و کنترل کیفیت را در تمام مراحلِ تولید اعمال می‌کند. در نتیجه، دارای سبد کامل محصولاتی است که نیازها و سلایق مختلف مشتریان را برآورده می‌کند.

سبد کامل محصولات

چینی‌کُرد سبد کاملی از محصولات چینی بهداشتی را در چهار گروه اصلی توالت فرنگی، توالت آسیایی، روشویی و زیردوشی تولید می‌کند. محصولات در هریک از این گروه‌ها دارای ویژگی‌های متنوعی از جمله طرح، شکل، اندازه و عملکرد بوده و به زیرگروه‌ها نیز تقسیم می‌شوند تا انتخاب راحتی را برای شما فراهم کنند.
کامل بودن سبد محصولات چینی‌کُرد، امکان انتخابی متناسب با اکثر سبک‌های معماری، از کلاسیک تا مدرن، از مینیمال تا بوهمین، از شرقی تا غربی و ... را هم فراهم کرده است.

بهداشت محصولات

نظافت سرویس بهداشتی یک نکته مهم در حفظ بهداشت هر خانه است. از این رو بهداشت در صنعت چینی بهداشتی حرف اول را می‌زند. انتخاب مواد اولیه با کیفیت، فرمولاسیون دقیق و پخت مناسب، عواملی هستند که منجر به تولید محصولاتی با کمترین میزان جذب آب و بهداشت بالا می‌شوند. علاوه بر فرآیند تولید، طرح و نوع محصول نیز در میزان بهداشت و نظافت آن موثر است.
نظافت آسان سرویس‌های بهداشتی همواره دغدغه چینی‌کُرد بوده است؛ تامین مواد اولیه را از بهترین معادن انجام می‌دهد، در آزمایشگاه مجهز به تجهیزات دقیق خود، فرمولاسیون دوغاب و لعاب را به‌طور روزانه کنترل می‌کند، سرتاسر محصول را با لعابی یکدست می‌پوشاند و سپس پخت آن را در کوره‌هایی با ۱۲۰۰ درجه حرارت، انجام می‌دهد. سطح صاف و صیقلی، لعاب یکدست و سیفون‌های پوشیده از لعاب، نظافت محصولات چینی‌کُرد را آسان کرده و مدل‌هایی با نصب روی دیوار و عدم اتصال به کف زمین نیز در سهولت نظافت سرویس بهداشتی موثر هستند.

پایداری زیست محیطی

در دنیـای امروز، که آلودگی زیست محیطی یک دغدغه مهم همگانی‌ست، اکثر جوامع در حال حرکت به سمت مفهوم پایـداری زیست محیطـی هستند. در این راه مسئولیـت شرکت‌های تولیدی در کاهش آلودگی محیط زیست و جلوگیری از تخریب منابع طبیعی سنگین‌تر از قبل است.
این مسئولیت از روزهای آغازین در چینی‌کُرد احساس شده و سالن‌ها و فرآیندهای تولید با این نگاه بنـا شده است. تصفیـه پساب‌های بهداشتی و صنعتی و استفاده دوباره از آن‌ها برای آبیاری درختان داخل و اطراف کارخانه، توسعه فضای سبز و راه‌اندازی سیستم آبیاری قطره‌ای، تعویض منظم فیلتر دودکش‌های کارخانه و اطمینان از فرایند احتراق کامل و صرفه‌جویی در مصرف انرژی با استفاده از لامپ‌های کم‌مصرف ال‌ای‌دی در سراسر کارخانه از جمله اقدامات چینی‌کُرد برای ارج نهادن به مسئولیت‌های زیست محیطی خود است.

توالت‌های فرنگی منوبلاک

سلایق، محدودیت‌های جسمانی، محدودیت‌های فضا و سبک معماری سرویس‌های بهداشتی در انتخاب نوع محصول موثر هستند. (به همین منظور) توالت‌های فرنگی منوبلاک یا یک‌تکه چینی‌کُرد در طرح و شکل‌های متنوع، و ویژگی‌ها و استانداردهای مختلفی طراحی شده و انتخاب محصول متناسب را راحت‌تر کرده است. سطح داخلی سیفون توالت‌های فرنگی چینی‌کُرد لعاب خورده و با قدرت تخلیه بالا، هرگونه آلودگی ظرف چند ثانیه کاملا زدوده خواهد شد.

- سیستم فلاشینگ توربوجت و ریزشی
- دارای شیر خودشور (بیده) و یا ساده
- سایزهای مختلف خروجی
- خروجی به دیوار و کف
- مکانیزم ۲ و ۳ اینچ
- آکس‌های مختلف ۱۲ تا ۳۰ سانتی‌متری
- درب دوبل‌های اسلیم، آرام‌بند و آسان‌نصب

توالت‌های فرنگی وال‌هنگ

برخی از سرویس‌های بهداشتی از فضای محدودی برای نصب توالت فرنگی برخوردارند، حساسیت بالایی از نظر رعایت بهداشت دارند و یا از نظر طراحی به محصولات مدرن‌تری برای چیدمان نیاز دارند؛ در پاسخ به این نیازها، توالت‌های فرنگی وال‌هنگ که اندازه کوچک‌تری نسبت به منوبلاک‌ها دارند، با کف سرویس بهداشتی برخورد نداشته و از ظاهر به‌روزتر و مدرن‌تری برخوردار هستند، طراحی شده است. توالت‌های فرنگی وال‌هنگ چینی‌کُرد با توجه به نیازمندی مصرف‌کنندگان ایرانی در دو نوع ساده و با شیر خودشور طراحی و عرضه می‌شوند.

- سیستم فلاشینگ ریزشی
- دارای شیر خودشور (بیده) و یا ساده
- درب دوبل‌های اسلیم، آرام‌بند و آسان‌نصب

توالت‌های آسیایی

توالت‌های آسیایی که از قدیمی‌ترین انواع توالت‌های ایران هستند، در چینی‌کُرد با ظاهر مدرن‌تر و به‌روزتری طراحی می‌شوند. از نظر سطح در دو نوع ساده و طبی و از نظر نوع آبریز در انواع ریم‌بسته، ریم‌باز و ریم‌لس دسته‌بندی می‌شوند. مدل‌های ریم‌بسته و ریم‌لس به دلیل عدم امکان تجمع آلودگی‌ها و سهولت نظافت، بسیار بهداشتی‌تر هستند. همچنین اندازه‌های متنوع در تولید این محصولات، انتخاب مدل متناسب را برای سرویس‌های بهداشتی مختلف راحت‌تر کرده است.

- سیستم آبریز ریم‌بسته، ریم‌باز و ریم‌لس
- طراحی ارگونومیک
- اندازه‌های مختلف

روشویی‌های دیواری

در مکان‌هایی مانند بیمارستان‌ها و کلینیک‌های پزشکی و برخی از منازل که حساسیت بالایی برای نظافت کف سرویس‌های بهداشتی وجود دارد، روشویی‌های دیواری راه‌حل مناسبی هستند. علاوه بر این، از نظر اشغال فضا هم این گروه محصولات بسیار کارآمد بوده و فضای کمی را اشغال می‌کنند. چینی‌کُرد تنوع بالایی از روشویی‌های دیواری را در اندازه‌ها و شکل‌های متنوع برای سلیقه‌های مختلف تولید و عرضه می‌کند.

- نصب آسان روی دیوار
- پوشش سرامیکی کف
- عمق مناسب
- کیت نصب محصول
- خروجی و حلقه سرریز
- سطح شستشوی مفید

روشویی‌های روکابینتی

داشتن فضای کافی برای نگهداری لوازم بهداشتی در سرویس‌های بهداشتی دغدغه افراد زیادی است؛ به همین دلیل استفاده از روشویی‌های روکابینتی هنوز هم طرفداران زیادی دارد. محدودیت در فضا، سبک طراحی و سلیقه افراد مختلف نیازمند تنوع بالایی از این گروه محصول است. چینی‌کُرد همواره به فکر ارائه راه‌حل به این گروه از مصرف کنندگان بوده و با طراحی و عرضه روشویی‌های روکابینتی در انواع Semi Countertop، Countertop، Inset و Semi Recessed، تنوع بسیار بالایی را ایجاد کرده است.

- با پانچ شیر و بدون پانچ
- پوشش سرامیکی کف
- خروجی و حلقه سرریز
- عمق مناسب
- سطح شستشوی مفید

زیردوشی

استفاده از زیردوشی‌ها، به دلیل فراهم کردن فضای اختصاصی در حمام، طراحی فضا را مدرن‌تر و زیباتر می‌کند. علاوه بر این با جلوگیری از پاشش آب به قسمت‌های دیگر سرویس بهداشتی، باعث صرفه‌جویی و سهولت در نظافت می‌شود. تولید این محصول از جنس چینی بهداشتی، نسبت به سایر مواد اولیه سازگاری بیشتری را با محیط‌زیست ایجاد می‌کند. زیردوشی‌ها جزو محصولاتی هستند که به دلیل ابعاد بالا، تولید سختی دارند؛ چینی‌کُرد با دارا بودن ماشین‌آلات و تکنولوژی‌های به‌روز به راحتی امکان تولید این محصولات را دارد. طراحی با سطح ضدلغزش، زیردوشی‌های چینی‌کُرد را برای مصرف‌کنندگان کارآمدتر کرده است.

- ابعاد بزرگ و راحت
- سطح ضدلغزش

Monoblock Toilets

Monoblock or one-piece toilets are produced with different features to meet the needs of a wide range of consumers, through a variety of different models. The standard seat height makes it easier for those who have back or knee problems to use Chini Cord's monoblock toilets. To increase their hygiene and make them easier to clean, the inner surface of the siphon of these products is glazed.

- Turbojet and Washdown flushing system
- Horizontal and vertical outlet
- Various rough-in sizes from 12 to 30 centimeters
- With self-cleaning valve (bidet) or standard valve
- 2- and 3-inch mechanisms
- Soft close and easy release slim seat cover
- Various outlet sizes

Wall Hung Toilets

Wall-hung toilets are modern and hygienic products that come in two models: simple and with self-cleaning valve (bidet). The modern design of these toilets give a contemporary look to the bathroom and is suitable for small and large bathrooms through occupying less space. Wall-hung toilets are very hygienic because they are not connected to the floor of the bathroom.

- Washdown flushing system
- With self-cleaning valve (bidet) or standard valve
- Soft close and easy release slim seat cover

Asian Toilets

Asian toilets are produced in two models: simple and medical; they are categorized by the type of rim into closed-rim, open-rim and rimless. Closed-rim and rimless models are very hygienic due to the lack of possibility of accumulation of pollutants and ease of cleaning. Different sizes in the production of Chini Cord's Asian toilets have made it easier for consumers to choose a suitable model.

- Closed-rim, open-rim and rimless flushing system
- Some models have an medical design
- Various sizes for small to large bathrooms

Wall Hung Basins

Wall hung washbasins are among the modern types of washbasins that are very hygienic due to being installed on the wall; they are usually a suitable choice for places such as hospitals and clinics. In terms of space occupation, this group of products is also very efficient and takes up little space. Chini Cord produces and offers a large variety of wall hung washbasins for different tastes.

- Easy installation on the wall
- Ceramic trap cover
- Appropriate depth
- Installation kit for the product
- Overflow outlet channel
- Useful washing surface

Countertop Basins

The high variety of countertop washbasins in Inset, Countertop, Semi Countertop and Semi Recessed types has placed Chini Cord among the top brands in the sanitary ware market. In addition to the variety in model and type of placement on the cabinet, these products are also produced in different sizes to suit small to large bathrooms that are subject to different limitations.

- With or without tap hole
- Overflow outlet channel (some models)
- Useful washing surface in various designs
- Ceramic trap cover (some models)
- Appropriate depth

Shower Trays

Using shower trays as a dedicated space in the bathroom results in the design of a more modern and beautiful space and facilitates cleaning. Shower trays are among the products that are difficult to produce due to their large dimensions. Chini Cord's manufacturing equipment, processes and technologies allow for the production of these items. The design with anti-slip surface also makes Chini Cord's shower trays very unique.

Washbasins, Squat Toilets and Shower Trays

R

Chini Cord

Through the design and production of a variety of products compatible with different architectural styles, Chini Cord has been active in the sanitary ware industry since 1983. Designed by talented young designers, Chini Cord products are produced under the supervision and quality control of experienced engineers, in accordance with international standards of this industry. The brand's main goal is to provide quality sanitary products in order to create a comfortable, inspiring and beautiful bathroom space.

Lifestyle

In today's fast-paced world, it is crucial to transform our homes and workplaces into welcoming and comfortable spaces. Bathrooms are not just for washing up; they can also provide a space for relaxation and mindfulness.

Using appropriate colors and patterns, ornamental flowers and plants, fragrant scents and proper lighting can all create a pleasant and restful atmosphere. However, more importantly, sanitary products that are easy to use, perform well, have a beautiful design, and easily match the space play a key role in ensuring tranquility. With this philosophy in mind, Chini Cord creates products that combine beauty, functionality, and modernity. Attention to detail, along with the quality of Chini Cord products, have not only created a highly positive experience for domestic consumers, but also consumers from Middle Eastern, North African, and European countries. As a leading and modern brand, Chini Cord not only uses innovative design methods in designing its products, but also blends technology and environmental sustainability in this process. It uses unique machinery for production, adopts an innovative design method, and applies quality control at all stages of production. As a result, it has a complete basket of products that meet the needs and tastes of different customers.

Complete Basket of Products

Chini Cord produces a complete basket of sanitary ware products in four main categories: Toilet, Asian toilet, Washbasin and Shower Trays. The products in each of these categories have various features such as design, shape, size and function and are also divided into sub-categories to provide a wide choice. The completeness of Chini Cord's product basket also provides the possibility of choosing a suitable item for any architectural style, from classic to modern, from minimal to bohemian, from Eastern to Western and other distinguishing factors.

Product Hygiene

Cleaning the bathroom is important in maintaining every home's hygiene. Therefore, hygiene is the first priority in the sanitary ware industry. Selection of quality raw materials, accurate formulation, and proper firing leads to the production of sanitary ware with the lowest water absorption and high hygiene standards. In addition to the production process, the design and type of product also affect its hygiene and cleanliness.

Easy cleaning of sanitary ware has always been very important to Chini Cord. It sources raw materials from the best mines, controls the formulation of slip and glaze daily in its laboratory equipped with precise equipment, covers the entire product with a uniform glaze, and then fires it in kilns at 1200 degrees centigrade. A smooth and polished surface, a uniform glaze on products, and also glaze-covered siphons make Chini Cord products easy to clean. Models with wall mounting that are unconnected to the floor also make cleaning the bathroom easier.

Environmental Sustainability

In today's world, where environmental pollution is a major global concern, most societies are moving towards the concept of environmental sustainability. The responsibility of manufacturing companies to reduce environmental pollution and prevent the destruction of natural resources has become increasingly pressing.

This responsibility has been felt from the outset in Chini Cord so the production processes have been designed with this in mind. Treating industrial wastewater and reusing it for watering trees inside and around the factory, developing green spaces, launching a drip irrigation system, regular replacement of factory chimney filters, energy saving through the use of low-consumption LED lamps throughout the factory are among Chini Cord's actions to respect its environmental responsibilities.
